SUMMARY

DevOps & Security Engineer with hands-on experience in cloud infrastructure, CI/CD pipelines, and Kubernetes. Currently pursuing an MSc in Information Systems Development and Security at AUEB, with a growing focus on penetration testing, secure networks, and security engineering.

EXPERIENCE

Cloud DevOps Engineer — Performance Technologies S.A. Oct 2024 – Present
Athens, Greece

- **Cloud Infrastructure Management:** Managing and maintaining cloud resources on Microsoft Azure, including networking, compute, storage, and security configurations.
- **Kubernetes (AKS):** Operating and maintaining Azure Kubernetes Service clusters, including deployments, scaling, upgrades, and troubleshooting of microservices.
- **CI/CD Pipelines:** Designing and maintaining automated pipelines using GitHub Actions and Azure DevOps Pipelines for builds, tests, and deployments.
- **Monitoring & Observability:** Implementing and managing monitoring/logging with the Elastic Stack (ELK), including custom dashboards, alerting rules, and log retention strategies.

DevOps Engineer — CoreNetworks Oct 2023 – Aug 2024
Greece

- Developed and maintained backend systems using Python and Django, ensuring high performance, reliability, and scalability.
- Implemented DevOps best practices including CI/CD pipelines, automated testing, and scripting using Bash and Python.
- Managed the full application development lifecycle from development to deployment using CI/CD pipelines integrated with the GitHub API.

EDUCATION

MSc in Information Systems Development and Security Sep 2025 – Present
Athens University of Economics and Business (AUEB)

Key topics: Penetration Testing Methodology · Network Security & Secure Design · Cryptography & Applied Crypto · Vulnerability Assessment · Security-Aware Software Architecture

Major in Computer Science Oct 2020 – Oct 2024
National Kapodistrian University of Athens (NKUA) — Grade: 8.3 / 10

Systems programming (C), Algorithms & Data Structures, Operating Systems, Database Design (MySQL, PostgreSQL), AI/ML, Networks & Distributed Systems

TECHNICAL SKILLS

Cloud & IaC	Azure (Advanced) · Kubernetes (Advanced) · Docker (Intermediate) · Terraform (Intermediate) · Bicep (Beginner) · AWS (Beginner)
DevOps & CI/CD	GitHub Actions · Azure DevOps Pipelines · Git (Advanced) · Bash Scripting (Experienced) · Python (Experienced)

Security	Nmap · Burp Suite · OWASP Top 10 · Vulnerability Assessment · Cryptography · Linux Privilege Escalation · Secure Network Design · CTF (TryHackMe)
Programming	Python (Experienced) · C/C++ (Experienced) · Java (Intermediate) · Shell Scripting (Experienced) · SQL — MySQL, PostgreSQL · JavaScript
Systems & Tools	Linux — Ubuntu, Debian, CentOS (Advanced) · Windows (Advanced) · Docker Compose · Scrum / Kanban

CERTIFICATIONS

• Certified Kubernetes Administrator (CKA) — CNCF / Linux Foundation	2025
• Azure Administrator Associate (AZ-104) — Microsoft	2025
• GitHub Foundations — GitHub	2025
• Security, Compliance, and Identity Fundamentals (SC-900) — Microsoft	2024
• Azure Fundamentals (AZ-900) — Microsoft	2024

LANGUAGES

Greek	Native
English	C2 — Proficient (all components)
German	B1 — Independent (Goethe-Zertifikat B1, 2016)
